

Neil P. Private Deck Construction Fort Worth, Texas

Location: 411 W 7th St,
Fort Worth, TX 76102

Size: 3200 SF

Description:

New construction requiring variances from the City of Fort Worth. Panther RES worked with Architect Ken Loose at VLK architects to develop challenging solutions to client wishes for new space. These included adding fire pit accessory, repurposing ancient existing water tower into new viewing space, adding restroom facility, bar and barbeque space, putting green, and sitting areas. Panther RES mitigated issues with City of Fort Worth permitting and variance issues.
