Real Estate Services*

## Panther Real Estate Solutions

PantherRES is a full service consulting, management, and coordination firm offering many years of real estate and construction experience. Our desire is to be an extended member of your team. Our engineering background has helped us develop methodologies and processes so no details are forgotten or misunderstood. Over the years, PantherRES has developed relationships with some of the top Architecture, Engineering, and Construction firms in the North Texas Area and beyond. PantherRES will ensure your real estate projects are delivered.

## Development Services

Defining a project scope, understanding the site development and construction costs, developing an economic model, and knowing your financial options are essential elements for moving forward on your facility needs. PantherRES has a six-year history in delivering detailed, concise, and understandable reports that provide you, your debt and equity providers, and your business partners all the information needed to make a sound decision on your project.

## Municipal Government Coordination

Managing and being able to expedite the approval processes for master plans, plats, zoning changes, permits, and impact fee discussions can be a daunting task. Allow the experience of the PantherRES staff to assist you through the Pre-development, Development, and Construction phases of your project.
